# **PRICE LIST**

## **HENRY KOHANKIE & SON**

We offer herein a complete list of hardy ornamental nursery stock. Our nursery of seven hundred acres affords material to meet practically every need in landscape development. Stock is well grown and supplied with a fibrous root system which is of vital importance in the success of a planting.

All material will be freshly dug. We maintain no storage cellars since the superiority of freshly dug stock is recognized generally.

With few exceptions the plant names used conform to "Standardized Plant Names" as adopted by the Joint Committee on Horticultural Nomenclature.

# Please Read Carefully!

## CONDITIONS OF SALE

**Stock** will be supplied at prices named herein as follows: Five of any one variety at ten rate; twenty-five of any one variety at hundred rate. Prices do not include packing. A charge for the actual cost of the boxes and material used in baling will be made.

**Stock** specially selected by customers at the nursery will be charged according to its value.

**We give no warranty**, expressed or implied, as to quality, description, productiveness, or any other matter of any nursery stock that we sell.

**We do not guarantee** our stock to live and no allowance will be made for plants that fail. Our methods of handling and packing stock are modern and goods will be in good condition and well packed when they leave our hands. Our responsibility ends upon delivery to carriers. If goods suffer through delay in transit, claim should at once be made on **transportation company**.

**All claims** for errors must be made within six days after receipt of goods, or positively will not be considered.

**Unknown correspondents** who wish to open an account will please give us references and allow us sufficient time to investigate same. Otherwise, cash must accompany order. If goods are desired C. O. D., the order must be accompanied by one third of the amount to guarantee acceptance.

**Shipping facilities**—We can make direct shipment over the N. Y. C. R. R.; B. & O. R. R.; N. Y. C. & St. L. R. R.; American Railway Express and Electric Package. A siding to our packing house direct from the main line of the New York Central railroad enables us to handle stock with a minimum of exposure.

**Auto Truck Delivery**—We are in a position to make deliveries by auto truck to points within seventy-five miles of Painesville. Charges are made according to the size of truck required and the distance.

**T**HE production of many of the plants in this list represents no little effort. More than a few of the items are not profitable from a business standpoint which accounts for their general scarcity, but on the other hand they are indispensable to good landscape work.

Since we specialize in the execution of complete planting lists we aim to keep our assortment unbroken. To that end we hope you will co-operate by ordering material in reasonable assortment. We cannot always accept orders which are confined to plants that are scarce and our stock of which is limited.

# Deciduous and Evergreen Trees

## Shrubs and Vines

We recommend that all varieties marked with an asterisk be lifted with ball of earth and sewed in burlap. Experience has shown that the loss in these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve an extra charge per plant, as follows: 2-3'—25c; 3-4'—30c; 4-5'—50c; 5-6'—60c; 6-8'—75c; 8-10'—\$1.00. Larger sizes in proportion. In all instances where "B. & B." is indicated these charges are included in the printed price. We are prepared to deliver heavy specimens on platforms.

The figures printed in italics following each variety, indicate the average height of the plant at maturity.

We can also supply in limited quantity the following varieties of Japanese Flowering Cherries from the collection at Highland Park, Rochester. They are available in the 4 to 5 ft. and 5 to 6 ft. grades at \$1.50 and \$2.00 each, respectively.

**Amanogawa**—semi-double pale pink

**Hata-zakura**—semi-double white

**Horaisan**—double pink

**Hosokawanioui**—semi-double flesh

**Kwanzan**—double deep pink

**Miyako**—double pink

**Sumizome**—double purplish pink

Our named varieties of Japanese Flowering Cherries are grown on the Japanese type stocks. While the common practice of grafting on the European Mazzard stock is a cheaper method of propagation, it results in short-lived trees, which difficulty is overcome by using Japanese stocks.

## Herbaceous and Alpine Material

All kinds marked with an asterisk (\*) are adapted for the rock garden.

We are prepared to deliver from pots such kinds as are difficult to transplant or whose dormant period in the spring is brief. An extra charge of three cents per plant will be made for those so grown.
